Monroe 240Z Handheld Calculator

The Monroe 240Z is the most convenient commercial-grade 12-digit handheld calculator with algebraic function. Available in 2 colors, Black and Red, this calculator body is constructed of hard plastic with a metal faceplate providing a rugged exterior and a sleek look. Enjoy the large tiltable display for your preferred viewing angle of the 17mm tall digits, and by combining solar and battery power this calculator can function in any lighting. The Monroe 240Z contains a 3-key independent memory with noteworthy features such as: decimal settings of +,0,2,4, rounding, 5/4, and truncate features, group and grand total, mark-up, percentage %, square root keys and change sign. The Monroe 240Z also offers the standard calculator functions you would expect in a handheld calculator, which is why it is an extremely popular item for schools, retail stores, and home or office use.
